Winter beauty

Piney Dell Lodge

Piney Dell Lodge, a year 'round mountain resort, is located just five miles south of Red Lodge, Montana on the Beartooth Highway, U. S. 212, at the gateway to the Beartooth and Absaroka Mountains, three national forests, Yellowstone National Park and the Beartooth Primitive Area.

Some of the world's most spectacular and verdant "high country" sets in our "back yard." This high country of glaciers, pinnacles, deep canyons, lakes and streams offers outdoor recreation beauties untouched by sounds, smells and pressures of our modern society. There are no less than 300 lakes, ten lofty plateaus with an average elevation in excess of 11,000 feet and more than 5,000 waterfalls. The patriarch

Red Lodge Grizzly Peak ski runs

Red Lodge Grizzly Peak

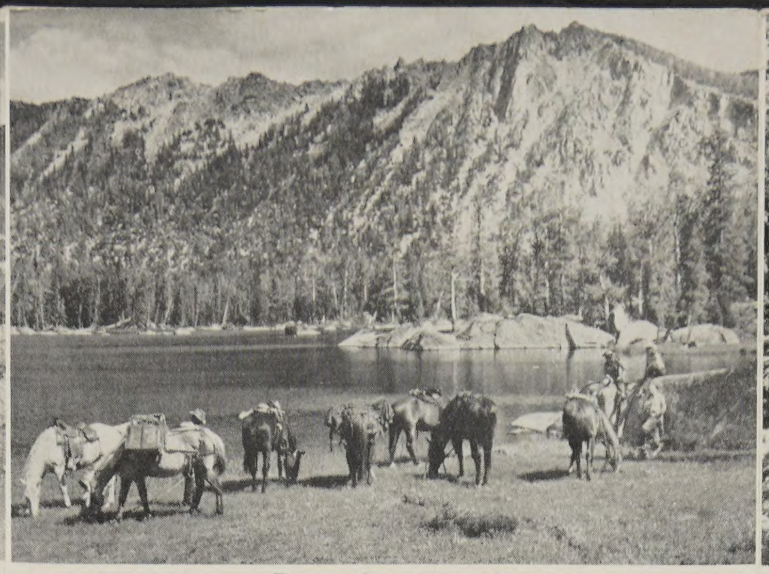
The Red Lodge Grizzly Peak ski area, offering an exciting challenge for skiers of all ages and skills, is only a few minutes drive from Piney Dell Lodge.

Several miles of runs are served by double chair lifts with a vertical rise of over 2,000 feet and a 1,000-foot Pomalift. A modern, split-level Alpine Chalet with a complete ski and rental shop, cafeteria and two lounges with fireplaces, serve the skiers' needs. A summit warming house offers superb view of the "high country" to the south and the plains to the north.

Piney Dell Lodge remains open the year 'round and welcomes skiers.

Anticipation!

Unspoiled beauty



Time-out for enjoyment

Solitude!

The main lodge is center of many activities and the gathering place for many hours of leisurely visiting around the fireplace or in the cozy cocktail lounge. A TV room permits our guests to enjoy their favorite programs while away from home.

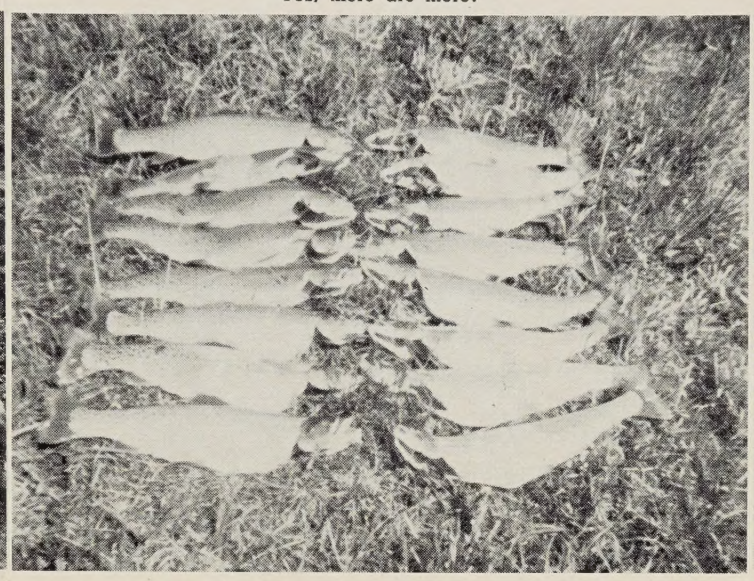
All accommodations are completely modern—rooms in the lodge, each with private bath, open onto the sundeck with its beautiful view of the mountains and Rock Creek Canyon. Cabin units, each with private bath and individually controlled heat, are situated to insure privacy and a panoramic view. Lodge and cabin units were designed for family use and enjoyment. Our dining room, with picture windows overlooking Rock Creek, is pleasant and cheerful—more important, it is well known for the delicious food served to satisfy appetites whetted by the keen mountain air and lodge activities. Situated at an elevation of 6400 feet we enjoy warm days that permit freedom of varying activities and cool nights that induce the most restful sleep.

Easily accessible the year 'round, Piney Dell Lodge is only 65 miles from Billings, Montana's transportation center—where, by prior arrangement, we meet our guests—and it is located on U. S. Highway 212. Red Lodge also has a 4,000-foot hard-surfaced airport available to the flying vacationer.

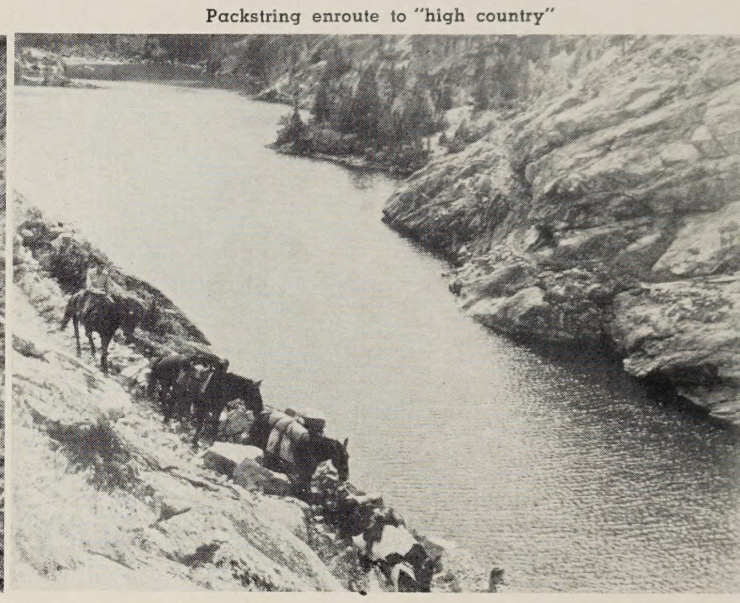
At Piney Dell Lodge you will find a sincere desire to make your vacation the most enjoyable, comfortable and memorable one of a lifetime.

Trail riders

Yes, there are more!



Packstring enroute to "high country"



Summer and Fishing Pack Trips

During the summer months Piney Dell Lodge offers pack trips into the "high country" ranging in duration from a few days to extended periods of time. These trips into several national forests and the Beartooth Primitive Area makes it possible for one to enjoy fishing and splendid scenery for photography and wilderness enjoyment in unblemished country free from the intrusions of economic development.

The many lakes and streams of the wilderness regions offer excellent fishing for all members of the trout family and grayling. Some of the lakes and streams on the fringe of these regions are accessible by four-wheel-drive vehicles while the rest can be reached only by pack string and horseback. Such fine trout-producing streams as the Stillwater, Boulder, East and West Rosebud Rivers and Rock Creek offering really good fishing, are within easy reach by auto from Piney Dell Lodge. One can actually throw stones into Rock Creek from our lodge or cabins.

Vehicle trips are arranged into areas where short hikes can be made to the old mining camps around Daisy Pass, Grasshopper Glacier and the scenic falls and lakes of the Hellroaring and Glacier Lake Plateaus. Trips of varying lengths to Yellowstone National Park, less than 60 miles from Piney Dell Lodge, can be arranged. The area holds a great deal of interest to "rock hounds" and amateur geologists, and Larry Higgins, a graduate and practiced geologist, is conversant with the area and its formations.

Our saddle horse "string" contains horses for the experienced and novice riders—our wranglers and guides are experienced horsemen and know their work and the country well. You can rely on their ability to provide an enjoyable, memorable and safe trip.

Big Game Hunting

Hunting constitutes the major activity at Piney Dell Lodge from early September through November.

We maintain hunting camps in the "high country" of the Beartooth Primitive Area and the Custer and Gallatin National Forests where we hunt elk, mule deer, bear, moose, bighorn sheep and mountain goat. These camps are accessible only by pack train and are loated in areas abundant with big game. Our camps are planned and equipped for your comfort and further enjoyment of outdoor living with ample, good, wholesome and well prepared food, clean and appetizingly served. No game meat is served in our camps except upon request of our guests.

Trips into the high country camps should be at least seven days' duration but if one wishes to hunt bighorn sheep or mountain goat, two of America's most prized big game animals, it is best to plan for a ten-day hunt.

Deer hunting with four-wheel-drive vehicles direct from our lodge or hunting camp in the Pryor Mountains can be arranged for those who prefer this type of hunting. The Pryor Mountain area has produced some record class mule deer "heads" in recent years. The fleet-footed pronghorn is hunted in the plains areas just east of Piney Dell Lodge.

Hunting for moose, bighorn sheep, mountain goat and antelope is on a permit basis and for this reason applications should be submitted before July 1.

Piney Dell Lodge

Piney Dell Lodge, a year 'round mountain resort, is located just five miles south of Red Lodge, Montana on the Beartooth Highway, U. S. 212, at the gateway to the Beartooth and Absaroka Mountains, three national forests, Yellowstone National Park and the Beartooth Primitive Area.

Some of the world's most spectacular and verdant "high country" sets in our "back yard." This high country of glaciers, pinnacles, deep canyons, lakes and streams offers outdoor recreation beauties untouched by sounds, smells and pressures of our modern society. There are no less than 300 lakes, ten lofty plateaus with an average elevation in excess of 11,000 feet and more than 5,000 waterfalls. The patriarch of the Beartooth Mountains, Granite Peak, rises 12,850 feet into the sky and is flanked by its satellites, Villard and Glacier Peaks, each of them above 12,000 feet. These peaks are almost continually enshrouded by snowfields and large glaciers such as Granite, Skytop, Hidden, and the world-famous Grasshopper Glacier.

These lakes and streams, many of them glacier fed, harbor almost every known member of the trout family in abundance. Many of the big game animals—elk, deer, moose, bighorn sheep, bear and mountain goat—are plentiful and may be seen on summer pack trips and hunted during the hunting season.

Lodge activities include trail rides, pack trips, hunting, fishing, cookouts, and vehicle trips to places of interest and are directed for the enjoyment of our guests. One may participate to the extent desired or enjoy the leisure of "loafing."
